MC Correct Grammar.

WRITING TOOLS

FREE 50-Page WRITER'S GUIDE

The original version of **Correct Grammar** received a 41/2 mice rating from MacUser Magazine, the highest rating of *any* grammar checker! Now, the best grammar checker is also the best style checker!

A must for any writer, Correct Grammar

checks writing for errors in grammar, style, usage, punctuation, and spelling. When it finds them, it politely suggests how you can correct them. Making the corrections is as simple as clicking your mouse. Or you can ignore the suggestion, or rewrite the sentence. Correct Grammar will even recheck your changes just to be sure there aren any *new* mistakes! If you don't understand the grammatical rule that is being applied, Correct Grammar will explain it!

Correct Grammar now respects your writing style. Choose from eigh style categories: Business, Academic, Informal, Technical, Legal Advertising, Fiction or Custom. So if you like to use informal expressions, or start your sentences with "but" or "and", Correct Grammar will let you do it, without asking you to reconsider!

Correct Grammar is so accurate that it's guaranteed to catch 95% of your mistakes, or your money back! Put it to work, and start looking your very best on paper!

> Item 74534M (List-\$99.95) \$54.95 each

"If you need color, we recommend the Microtek MSF-300Z." It's the least expensive full-sized color/gray-scale scanner..."

MacUser, September 1990 \$\$\$\$

"...the Microtek MSF-300Z is a clear winner, again, because it comes complete and the software is easy to use."

MacWorld, August 1990

Dartek has negotiated a special close-out purchase of Microtek's 300ZS scanners. As part of the agreement, Microtek has upgraded the units to 600 DPI, making them truly state-of-the-art. The 300ZS is the upgraded version of the scanner that captured MacUser's "Best Digitizer of the Year Award" and Publish's "Five Star Rating". It features a built-in Mac SCSI interface and is bundled with **Adobe Pho**toshop software, an award winner itself. Microtek is clearly the best choice for your scanning needs both today and in the future. The 300ZS accommodates your grayscale needs of today and the inevitable future of color. It scans in 256-level grayscale or 24-bit color! **Item 79283M*** (List-\$2695.00)

SCANMAN[®]

Now you can have scanning power in the palm of your hand. Logitech's ScanMan scans images up to a half-page width (4.5") at a selectable 100-400 DPI rate. Its image editing software lets you manipulate each image. Crop it. Move it. Rotate it. Flip it. Use the editing software as a stand-alone or with desktop publishing, word processing, HyperCard, O.C.R. or other applications. Then display the image up to 32 levels of gray or halftones, depending on your monitor, and print it. ScanMan attaches to the SCSI interface and is compatible with Mac Plus, SE and II's.

Item 79281M (List-\$499.00)\$319.95 ea.

Guide System For Hand-Held Scanners

Now, you can hold your hand scanner steady enough to input logos, artwork, photos and full pages of text. Scan-Trac is a guide system that holds your scanning materials under plexiglas while a bracket moves smoothly along a trac, holding your scanner steady as it scans. It helps you eliminate distortion and loss of images caused by erratic hand movements. Scan Trac will vastly improve your OCR software's ability to recognize hand scanned text. Scan Trac is designed to work with all major hand-held scanners.

Item 68118M (List-\$39.95)\$29.95 each.

Abaton InterFax

As low as

#75102

Q95

Facsimile convenience is now as close as your Mac. The InterFax provides both modem and full fax capabilities; the versatility of two machines for little more than the cost of a data modem alone. InterFax makes faxing as easy as printing. Just compose your document, then fax it by choosing the fax driver and following your print routine. Because documents are faxed without being printed first, they are received as the clearest facsimile possible. Unlike conventional fax machines, the InterFax gives you the option to view your document, print it or store it on the hard drive. InterFax doesn't waste your time. While you work in one application, it sends and receives in full background mode. Received faxes or scanned images can be converted to and from TIFF, PICT and MACPAINT'S® PNTG formats for editing and transmission.

SER'S MANUAL

Anybody who's ever been a student knows that libraries supply a wealth of information. Now the EMAC Metro CD uses the latest CD technology to access a growing resource of information. The Metro CD enables your Macintosh to access a wealth of pre-recorded data and applications found on CDs.

FREE OFFER: order the EMAC CD ROM Drive, and receive \$524 worth of CDs free! And that's not all. Dartek even slashes a full \$100 off the EMAC Drive itself. This is an unbeatable offer on a product that begins to benefit you the moment you "open" the first CD.

EMAC's exclusive CD audio DA program provides full command of the drive and enables the Metro to playback digital audio from any pre-recorded music or data CD disk. Information and entertainment in one drive!

The New Bernoulli 90MB Twice the capacity, costs less, is aster, and still reads 44MB disks

At 90 megabytes per removable disk, we've nore than doubled our capacity. Yet the new Bernoulli 90 is actually less expensive han our own Bernoulli 44, as well as other emovable-disk drives. A lot less. And with a new, 19-msec effective access time, a lot aster too.

But the best part is, it's all Bernoulli. Rugged, eliable, endless storage. The most comprehensive emovable-disk drive ever. The new Bernoulli 90 is exactly what storage-intensive Macintosh users demand.

Type Reunion

Adobe Type Reunion alphabetizes all your PostScript® fonts by family name, reducing your font menu by more than 75%. Submenus define styles and weights. Type Reunion works with all Adobe font software, as well as typefaces from AGFA Compugraphic, Bitstream, Linotype, Monotype and Casady & Greene. Installs easily into the System Folder with a few mouse clicks.

Adobe Type Reunion

Type Manager

Lose those "jaggies" with Adobe Type Manager. ATM produces true WYSIWYG displays using Adobe's PostScript language. Outline fonts create crisp, clear characters on your screen and hard copy. Works with ImageWriters, HP DeskWriters, QuickDraw devices, and PostScript laser printers. Times, Helvetica, Courier, and Symbol fonts are included, and ATM supports most Type 1 fonts.

TypeAlign

With Adobe TypeAlign, users can rotate, manipulate, and distort type into a variety of different shapes. TypeAlign uses familiar Macintosh tools for the creation of paths, including custom paths drawn freehand. Perspective and distance can be applied by changing the width of a text block. TypeAlign supports over 16 million colors and is fully compatible with all major desktop publishing, word processing and presentation programs.

Adobe Plus Pack is a natural addition to your PostScript type collection, with 22 fonts from these families: ITC Avant Garde Gothic, ITC Bookman, Helvetica Narrow, New Century Schoolbook, Palatino, ITC Zapf Chancery Medium Italic, and ITC Zapf Dingbats. These 22 faces are so popular they're resident in most PostScript printers!

Symbols, Borders & Letterforms Cellector's

Create professional-looking artwork in minutes! Symbols, Borders and Letterforms is an easy-to-use library of over 400 pre-built graphic elements, borders and font outlines for the Adobe Illustrator family of software. Images are ready to be "pasted" into any Adobe Illustrator file. Images retain their smooth, high-quality resolution when printed out on a PostScript printer.

Collector's Patterns and Textures

Patterns and Textures is part of Adobe's library of illustration tools that help you produce professional-looking graphics fast! Patterns and textures are divided into 5 categories: Architectural, Basic Graphics, Cartographics, Classic and Geological. PostScript artwork insures smooth curves and high resolution when printed out on a Post-Script printer. Each one can be used as-is or modified quickly and easily.

......\$142.00

Adobe Streamline

Transport, manipulate and print artwork easily! Adobe Streamline converts bitmapped files into files that you can refine using Adobe Illustrator or use as is with your favorite word processing or page layout program. Process files in batches, one at a time, or just select a portion of your artwork for tracing. EPS files take up to 90% less disk space than the original bitmaps.

Adobe Photoshop New! V2.0 w/Adobe Type Manager

Photoshop V2.0 is the complete professional prepress, color correction, paint, video editing and darkroom system that lets you seamlessly edit and merge color images into a single 24-bit color or black and white creation. Print high-quality separations directly from Photoshop or export your EPS file to Adobe Illustrator or your page layout program. V2.0 is System 7 Savvy. tem 74857M (List-\$195.00)\$122.00 Item 74831M (List-\$895.00)\$549.00

FontMonger

For Converting and Customizing Your Type Library FontMonger bridges competing technologies by letting desktop publishers easily convert back and forth between Adobe Post-Script Type 1, Type 3 and Apple True Type. Now you'll have access to your entire font library, no matter what you're working on, or

where you're doing it! FontMonger's unique hinting technology insures the highest quality font for the chosen format. Type can be converted to Adobe Illustrator or EPS language files, and import/ export capabilities allow for logos and design elements to be incorporated into a typeface. Type can even be modified by merging elements from several typefaces to create new fonts, fractions, composite characters, superscript, subscript and true small caps! It's the perfect type conversion and modification program for anyone who needs complete typographic control.

Item 74778M (List \$99.95) \$62.00

PANTONE **Process Color**

Guides For All Computer Graphic Color Needs

The PANTONE* Process Color Imaging Guide (A) is the perfect companion to all Pantonelicensed software programs. It provides a visual comparison of solid PANTONE Colors and process simulations as they would appear on the final printed piece. As many PANTONE Colors cannot be satisfactorily reproduced in four-color process, this publication provides the user with the information to decide whether to specify solids

or simulations when working with PANTONE Colors on the desktop. Item 68226M (List-\$75.00)\$48.00

When you need a broader selection of process colors, turn to the PANTONE* Process Color System Guide (B). This fan-out process color selector gives users a visual color standard and screen percentage values for over 3000 new CMYK combinations, which are easily created, specified and reproduced with your favorite graphics program.

Item 68228M (List-\$75.00)\$48.00

MacDraw Pro

MacDraw Pro manipulates color and form using the full color and gray-scale capabilities of your Mac. Draw structured or hand-sketched shapes with precision. Defines color using the Pantone color-matching system. The powerful MacWrite II-based text ruler sets tabs, indents, and margin controls, and fine-tunes line and letter spacing to create attractive publications.

QuarkXpress V3.0 Buy Before 10/31/91-Free Upgrade to V3.1!

QuarkXpress 3.0 is loaded with new features and a simplified interface. Paste-board feature lets you work in the space outside the page. Program allows rotation of text and graphics by increments as fine as .001 degree! Up to seven documents can be opened simultaneously, and each can have 127 different retro-active master pages.

Symantec AnitVirus for Macintosh (SAM) is the most comprehensive software package available for combating viruses designed to attack your Macintosh computer. SAM finds and destroys all known viruses and clones. SAM can repair any infected files quickly and easily. Update SAM by downloading the virus definition file from Symantec's Bulletin Board System. The virus definitions file includes protection, detection and repair against any newly discovered viruses.

SUM II — Backup + Recovery + Efficiency = SECURITY!

SUM II's powerful utilities keep data safe, secure, and efficiently organized. Program components include backup and data recovery, data encryption with password, optimizer for peak hard disk performance, disk partitioning for multiple users, and much more.

Virex

Virex is virus prevention, detection and treatment for the Macintosh It is the first comprehensive solution to the threat of Macintos computer viruses. Virex both detects the presence of computer viruses and repairs files infected by all known Macintosh viruses. also detects new or previously unknown Macintosh viruses. Th Virex INIT feature continuously monitors your system so that viru infections are prevented. The Virex INIT inspects each disk whe inserted and each file when opened for the presence of viruses. Th Virex INIT also enables you to repair infected files before they ca spread a virus. On-line help is just a mouse click away! Works o MacPlus, SE, SE/30, II IIx, IIcx or IIci; with a minimum single dis drive. Virex is compatible with MultiFinder, Apple Share and network ing software.

CanOpener

Find information fast, without quitting your current program! Can-Opener opens any file, even system and corrupted files. Uses your clues to locate all files containing the information you need, and then lets you copy, paste or print it. CanOpener recognizes text in the following formats: ASCII, MacPaint, MacDraw II, PICT, PICTII, TIFF, RIFF, EPS, ICON and SND Resource.

Cheshire

Upgrade your presentations with business charts created instantly,

almost effortlessly, with Cheshire.

choose from over 20 chart types in-

> Item 75120M (List-\$125.00)\$60.00

MacFlow, now System 7 Compatible, draws flow charts, data flow diagrams, organizational charts and process flow diagrams up to te times faster than with regular drawing programs. With MacFlow simply drag any of the pre-drawn symbols, connect them with stick lines and add text. It's a breeze to create professional looking chart with MacFlow!

MacSchedule visually displays how project tasks will get done an displays them in several options of time lines. Create clear graphi schedules fast using Gantt charts. MacSchedule helps organize you time and plan projects more efficiently! Yes, MacSchedule is Syster 7 Compatilbe.

cluding bar, column, line, and surface, click and Cheshire arranges and pastes the charted data right into your page! Works with PageMaker, MS Word, Mac Write II, and Mac Draw II.

CHESHIRE

Communication & Utility Software

World Class File Compression

Watch for This Symbol

= System 7 Compatible

Disk Doubler V3.7 is the remarkable utility from Salient Software that quickly and easily doubles the available space on your hard disk and loppies. Because it operates as a system extension built into the Mac's Finder, it's a breeze to use without learning or remembering a series of new commands! Lets you use compressed files like you would use any other file - simply double click on the file icon and Disk Doubler automatically expands the file as it's opened, and recompresses it when it's closed. Version 3.7 is loaded with features ncluding smaller compressed files and increased compression speed. Will split large files for backup or combine files to streamline telecommunications. Disk Doubler is System 7 savvy, too, taking advatage of System 7's Balloon Help, file aliases, Apple Events and inter-applicaion access. Put this award-winning utility to work for you today!

tem 74915M (List-\$79.95).....\$49.00

MacLink Plus/PC

MacLinkPlus/PC V5.0 is a complete solution for exchanging files between a Mac and an IBM PC, PC compatible, laptop, Next or Sun machine. Contains over 350 translators. Easy-to-use Macintosh file windows transfer any file that your Mac can "see" with a few mouse clicks. Make connections with the included serial cable via the serial port, or by modem. DOS Mounter software included.

AfterDark & More . . . A New Bundle!

AfterDark is the classic screen saving utility that combines a collection of over 30 whimsical screen displays (you know the fish tank and the flying toasters!) with password protection and sound, too. You determine when AfterDark "takes over" an unattended screen. Customize AfterDark with your own artwork, message or company logo. (List-\$49.95)

More AfterDark! Includes 25 new screen saving displays including beautiful new fish, the Mowin' Man, and Tunnel. Virex D, the virus detector module from Microcom, is included and it scans for viruses while AfterDark sleeps. (List-\$39.95) Requires AfterDark 2.0

Item 74879M AfterDark 2.0	\$28.00
Item 75283M More AfterDark	\$23.00
Item 75285M AfterDark & M.A.D. Bundle	\$42.00

Quickeys² V2.1

QuicKeys² V2.1 is the 7 savvy update to this highly regarded macro generator. QuicKeys² drives Apple Events and can now initiate even complex background tasks, communicating between Apple Event "aware" applications. Real Time Recording feature lets you make QuicKeys that duplicate your every move—and, combined with Smart moves, you'll save a load of time on complex daily routines.

Printers & Accessories

(3-drawer 3.5" unit)

Don't Let This Happen To You

Flexible storage unit holds large quantities of disks or data cartridges for quick access. Both sizes and styles (single-drawer/mulitple drawer) clip together top to bottom to create a large integrated system. Slide-out drawers with dividers allow for easy visual scanning. See-through label panels identifies contents.

The 31/2" multi-drawer file includes 3 drawers and stores up to 180 diskettes (60 per drawer), or 30 mini size data cartridges. The 51/4" multi-drawer file has 2 drawers and holds up to 200 diskettes (100 per drawer), or 16 standard size data cartridges. Built-in handles make drawers portable; each unit is fully lockable.

Multi-Media Modules Store Diskettes or Data Cartridges

A) Single-Drawer 51/4" unit. Holds up to 100 51/4" diskettes or 8 standard size data cartridges. Interlocks with multiple-drawer units. Lockable.

B) Multiple-Drawer 51/4" **unit.** Twodrawers in one outer shell. Each drawer has the same capacity as the singledrawer units. Lockable.

C) Single-Drawer 31/2" unit. Holds up to 60 31/2" diskettes or 10 mini-size data cartridges. Interlocks with multiple-drawer units. Lockable.

D) Multiple-Drawer 31/2" unit. Threedrawers in one outer shell. Each drawer has the same capacity as the singledrawer unit above. Lockable. E) Under Desk Mount. Holds one

E) Under Desk Mount. Holds one multiple-drawer unit securely. Frees up valuable disk space.

TONED

Save \$60.00/Cartridge* with Refillable Toner System

Now, you have an alternative to expensive toner cartridges. Refillable toner cartridges allow you to fill the cartridge with toner 4 times before discarding it. This system implements a redesigned OEM cartridge that makes transferring toner from toner cassettes to the cartridge simple and clean. You save money by buying only the toner, not the entire expensive cartridge.

Each kit includes one new, empty OEM toner cartridge that has been modified, 4 toner cassettes for refilling and 4 wands for cleaning. Replenishing the toner supply is as easy as 1-2-3 (see picture at right for instructions). Handy, without a mess. Each kit contains the equivalent toner of 3 OEM cartridges.

* Savings per cartridge based on list price of \$125.00.

Laser Printer Accessories

Print 1500 sheets or 250 envelopes non-stop using YOUR printer!

Ideal for shared printers, high volume printing & networks
 Works with Apple LaserWriters, Hewlett-Packard & others

PaperJet 1500

- Feeds 1500 Sheets Without Reloading
- No Software Requirements
- Manual By-Pass Slot

The PaperJet 1500 is a motorized, 1500sheet paper feeding system that gives you over 3 hours of non-stop printing. Don't worry about your standard output tray overflowing. We have that covered, too, with our 1,000sheet output tray. (List-\$895.00)

Item 71700M For Apple LaserWriter II SC, NT & NTX, H/P LaserJet II & III & others ... \$595.00 ea.

EnvelopeJet 250

Feeds 250 Envelopes Non-Stop
 No Software Requirements

The EnvelopeJet 250 lets you feed 250 envelopes through your laser printer without reloading. Now, you can efficiently run software programs that generate mailings and produce personalized envelopes directly from your laser printer. You eliminate the time-consuming steps of printing on labels and then affixing labels to envelopes, plus it looks better too! (List-\$499.00)

Item 71600M For Apple LaserWriter II SC, NT & NTX, H/P LaserJet II & III & others .

Extra Paper & Envelope Trays Ideal For Letterhead, Colors

Change paper sizes & colors quickly
Trays remove easily

Changing paper in your printer can be as easy as switching trays. Change from letter to legal-size paper, or high-grade laser paper to letterhead, or from colored paper to envelopes without unloading any trays. These trays keep your office efficient and productive. All three are compatible with Apple LaserWriter II SC, NT, NTX, Hewlett-Packard LaserJet II, III, IID, IIID and other laser printers. Check for compatibility.

Route Tangled Cables Off Your Desk

The Cable Manager routes cables from your work surface to an outlet. Its 36" wide channel guides cables into a ribbed connector and then through an 18" vertical channel. Cables can enter the Cable Manager at any point and are held snugly in place. It attaches to any desk style with or without an overhang via industrial strength, double-stick tape (included). Requires no tools to install.

Item 96470M (List-\$44.95)\$39.95 each.

Laser Cleaning Paper

Assure yourself of crisp, clear images with Laser Cleaning Paper. It is specially developed to remove paper dust, dirt and toner deposits as it travels through your printer. Use a sheet after every toner cartridge change and after extensive copy output. 50 shts./pkg. (List\$25.00) Item 91531M\$19.95/pkg.

Remanufactured Toner Cartridges

The expensive plastic cartridge for LaserWriter II's is recycled so we can pass the savings along to you. Internal components are disas sembled, cleaned, inspected thoroughly and replaced if needed Before being refilled with high-quality toner, the drum is recoated Your print will look as good as or better than that produced from an OEM cartridge. We guarantee it.

Item 71950M1, \$69.00 ea.; 2-4, \$65.00 ea., 5+, \$59.00 ea

Using only five toner cartridges a month could add up to the cost of a new laser printer in just one year! *Savings in chart is based on new OEM cartridges at \$105.95 for 1 and \$94.95 for quantities of 5 or more.

Accessories

AddressWriter[®] Envelope Printer

The AddressWriter Envelope Printer is a small dot-matrix printer that prints addresses in just seconds. It produces letter-quality print on envelopes, postcards or labels, one at a time or by the hundreds. It holds up to 100 envelopes (up to 4.3" tall) or 250 postcards. You print a letter on your printer and simultaneously print the envelope on the AddressWriter-what a time savings!

Here's more savings potential! MacEnvelope® software (included) automatically prints postal bar codes to match zip codes to help you qualify for postal rate discounts. You can manage multiple lists, up to 1600 addresses each, within this program or import/export address lists to all popular word processors and databases. Design envelopes on-screen and import logos or graphics. An optional label feeder lets you print on standard one-up pin fed labels. One-year warranty.

Give Your Mac Its Own Set of "Eyes" Capture Real World Images on your Hard Drive

Imagine the ability to add virtually any image to your documents; Digital Vision makes it possible. If your video camera can see it, or if it's available on any standard video source (tape, disk etc.) **ComputerEyes** will capture it, store it and make it available for documents or on-screen presentations. ComputerEyes is offered in two versions, black-and-white or color. B/W is compatible with the entire Macintosh family and requires only1MB of RAM. The color version is specifically designed for the Mac II and requires 2MB of RAM and 8- or 24-bit color graphics display capability. Color displays 16.7 million colors in 24-bit mode. ComputerEyes B/W uses 8 bits per pixel to create 256 levels of gray at 640 x 480 resolution.

Item 75109 ComputerEyes B/W -includes interface hardware, software, owner's manual and 1-year warranty (List-\$249.95) \$199.95 Item 75110 ComputerEyes Color-includes interface hardware, software, owner's manual and 1-year warranty (List-\$449.95) ... \$349.95

Kurta Digitizer Boards

PageMaker®, Freehand® and Persuasion® just got easier to use

Unlike a mouse that always makes you start where you left off, or push it to the next position, Kurta Boards are "exact" devices. The pointing device and the screen cursor are in direct absolute relationship. This makes it possible to correctly accomplish freehand drawing, tracing and get your work done faster and more comfortably.

New Aldus Version. Now you can have page layout, freehand drawings and presentation graphics capabilities in one studio, Kurta Studio™. The Kurta Studio template is designed to follow the Aldus screen menus making all commands easily accessible to even the casual user. The preprogrammed template incorporates Aldus' most commonly used commands so you don't have to revert to the keyboard for shortcuts.

Safely Transport Your Mac & Printer

Each carrying case has fully zippered front panels that fold down completely so you can slide your Macintosh into the case, rather than lift it up and in like other cases. Inside, there's over 1/2" padding and soft tricot fabric to protect equipment from bumps, scratches and marring. Outside, durable cordura nylon won't tear or rip and features water resistance. Inside pockets are designed for diskettes and supplies. Also features adjustable shoulder strap.

The Best Glass Anti-Glare & Anti-Radiation Filters

Anti-Radiation Glare/Guard® E-Shield™ Filters

- Block 99.99% of ELF/VLF E-field radiation
- Eliminate 99% of all screen glare & reflection
- Feature tempered glass in durable, molded frames
- Eliminate static charge & dust buildup

MacGlare/Guard Plus & Professional Filters

- Eliminate 99% of all screen glare & reflection
- New, custom-fitted frame for Mac Classic, Plus & SE/30
- Reduce 98% of low frequency E-field radiation
- Feature tempered glass in molded frames
- Omit static charge & dust buildup

Better Vision Anti-Glare Filters

Eliminate 95% of all screen glare at economical prices Feature unbreakable, tempered glass

Relieve glare-induced eyestrain, fatigue and "CRT headache" with an optically coated Glare/Guard filter. HEA coatings (high efficiency anti-reflective) are vacuum de-

posited on tempered glass to produce the most uniform, antieflective features available. The ilters eliminate the soft halo around screen images for sharper, easier to read text and graphics.

oft Touch™ Chamois cleans filters, lasses, cameras without liquid. Lint free.

If Your Monitor is not Listed:

Look at your monitor's picture tube and the tapered bezel area surrounding it. Measure the height and width of the screen plus the bezel area at its outermost points. Add 1" to 11/2" to each measurement. Ask a Dartek Customer Service rep to match a screen to your needs.

Anti-Radiation Mesh Glare Filters

Custom molded frames for Mac Classic, Plus, SE & 13" RGB Is your monitor harmful to your health? The jury's still out, but monitors do give off low levels of radiation. These Anti-Radiation Mesh Glare Filters block up to 99.99% of the electromagnetic radiation emitted from a monitor surface. Each filter is manufactured of a special state-of-the-art metallized mesh. The nickel/copper membranes of this mesh provide an exceptionally high surface conductivity. The higher the surface conductivity of the shield, the greater its shielding capability and the broader the frequency spectrum. These shielding materials have been tested and meet the U.S. Government National Security Agency's standards. Each screen features anti-glare/anti-static protection.

Space Efficient Copyholders

Align copy & increase inputting speed

Gain the convenience and comfort of properly aligned copy with Dartek copyholders. They place working copy next to your monitor, directly in your line of vision so you actually increase your input speed and accuracy.

Space-Saver Copyholders-Require no desktop space. A flat, metal base slips under your Mac to hold your copyholder in place. Its flexible arm extends copy 8" and adjusts the copyholder angle. When not in use, the arm swings out of the way, next to the monitor. The copyholder's faceplate may be attached for use on either side of the monitor. Features a clear line guide that pivots out of the way. Letter-size panel expands to legal size.

Foldable Desktop Copyholders

Take up desktop space only when you're inputting. When you're done, fold it flat for storage in a space only 1/2" high.

Mac Shuttle Adds Work Space By Elevating Oversized Monitors

Now, you can safely elevate your oversized, heavy monitor above your desktop just like the smaller, lightweight monitors. This heavy-duty, two-piece monitor arm safely supports up to 120 lbs. on its 16"w x 13"d platform. It mounts to any desk or table via a clamp mount or flat mount, or attach it to a wall. Packed full of features, the Mac Shuttle revolves a full 360° and extends 24" for a variety of comfortable viewing positions. This flexibility makes it ideal for sharing with anyone within a 6' circle. It tilts and swivels for glare-free viewing. A chrome grab bar slides in and out to hold your keyboard when you're not using it, making the Mac Shuttle even more space efficient. The Mac Shuttle (clamp mount) requires a minimum desk overhang of 2" and a maximum desktop thickness of 21/2".

Extended Desk Mount is designed for desks without an overhang. Clamp attaches to the top and bottom of the desk via an expandable post. #68234M

Mac II Extension Cable Kit includes a monitor cable, a power cable and a keyboard extension cable. Each plugs into your existing factory cables to add an additional 6' to their length. Item 81153M \$32.95 ea.

Adjustable, Anti-Static Support Relieves Wrist Discomfort & CTS

Even if Carpal Tunnel Syndrome (CTS) is not affecting you now, think long term. It could happen to you. The Perfect Angle Wrist Rest elevates and supports your wrists to reduce repetitive wrist motions while inputting. It adjusts to all low profile keyboards. Your keyboard rests on a 18"w x 91/8"d metal tray while your wrists are supported on a cushioned pad that is conductive. Attach the grounding wire and an LED will indicate when static is being dissipated. By touching the pad first, you drain away static electricity before you start keying.

Item 63805M (List \$39.95)1-3, \$37.95 ea.; 4+, \$34.95 ea.

Desktop Laser Stands

If your office space is at a premium, stack your laser printer atop frequently used supplies. The Laser Carrel organizes supplies in a pullout drawer. Two versions are available-Standard and Deluxe. The Standard Standard Laser Carrel's 18" x 18" platform holds printers up to 50 lbs. That includes the Apple Laserwriter II series and Hewlett-Packard LaserJet II series and III. The Deluxe Carrel features a spacious 19"w x 181/4"d x 93/4" h for printers up to 75 lbs. It also has an extra level of storage with a locking supply drawer. Item 51311M (List-\$89.95) Standard\$79.95 ea. Item 51313M (List-\$124.95)

Mac II CPU Stand

Get back valuable desktop space This sturdy aluminum CPU Stand provides worry-free, stable suppor holding your CPU 2" off the floor – plenty of space for proper ventilation (You'll need a Mac II Extension Cable Kit. See #81153M on page 11.) Item 68123M (List=\$29.95)\$27.95 ea

Keyboard Operators: Is Carpal Tunnel Syndrome (CTS) Affecting You?

Carpal bones Median nerve

Superficial branch

supplies the palm

Repetitive wrist motions, as in computer inputting, can cause Carpal Tunnel Syndrome (CTS). It's caused by damage to the median nerve that causes tingling, numbness or pain beginning at the tips of the thumb, index or middle finger.

The median nerve passes through the

wrist into the hand, on the palm side, from the arm. That nerve supplies the thumb, index finger, middle finger and part of the ring finger with sensation and muscle control. It passes through a narrow space in the underside of the wrist called the carpal tunnel. Damage can be caused by a sudden blow to the wrist (breaking a fall) or repetitive wrist motions, as in keyboard operation, causing swelling and compression of the nerve. Treatment may range from holding your wrists straight while inputting for mild cases to surgical remova of tissue for more severe cases.

Keep Your Mouse Handy With An Underdesk Tray Running out of desktop space for your mouse? Mount an Underdesk Mouse Tray to your desk, and you'll add a 10" x 8" area for mouse movement. Instead of reaching to the left or right of your keyboard to operate your mouse, you literally have it at a comfortable reach right next to you. The tray slides out for use but tucks away for storage. The rigid mouse pad is a fabric coated rubber that may also hold an optical grid. Underneath the pad

17/8"d—perfect for your mouse or supplies. Item 67907M (List-\$29.95) **\$27.95 each.**

is a storage compartment, 31/4"w x 7"l x

Accessories

3-in-1 Drawer Solves Your Work Space Limitations

This multi-featured drawer boasts an integrated keyboard shelf, mouse platform/work shelf and copyholder. Slide out only the keyboard shelf, or pull it further to automatically extend the mouse/work shelf or lower the work shelf to a 30° angled copyholder. You have plenty of shelf space to work and store working materials. The keyboard tray is 20"w x 173/4"d and accommodates keyboards up to 25/8"h. The mouse/work shelf is 20"w x 93/4"d. Both tray and shelf slide into a cabinet, 22"w x 18"d x 5"h, which stacks your Macintosh system on top.

Item 68107M (List-\$89.00).....1-2, \$84.95 ea; 3+, \$79.95 ea.

Moveable, Economy Wrist Rest

Support your wrists while inputting. This softly padded, gray vinyl covered wrist rest is $19"w \times 3"d \times 1$ "h and is completely portable. Position it wherever it best supports your wrists. Move it next to the keyboard or move it back slightly, depending on the size of your hands. It conveniently supports your wrist while using your mouse, too. It's solidly built and won't slip or slide during use.

tem 63803M (List-\$21.95). . . . 1-3, \$19.95; 4+, \$18.95 each.

Slide-Away Keyboard Shelf Adjusts for Ergonomic Comfort

Answer your need for ergonomic comfort with the Slide-Away Keyboard Shelf. Its smooth-swinging arm adjusts and tilts your keyboard at a level that is most comfortable for you. It raises or lowers your keyboard 6" and tilts +/-15° for efficient input. A padded 22"w x 10"d tray prevents keyboard movement. The keyboard shelf attaches to any non-metal desk with a minimum 5/8" desktop thickness.

SECURITY SOFTWARE ON PGS. 22 & 23

Mobile CAD Caddy

- Ideally positions monitor and keyboard over drafting table
- Steel construction provides solid support for total adjustability

Mobile CAD Caddy is attentive to the limited working space of CAD users. Working space is at a premium. Now, your CAD components can be effectively housed on a single frame that lifts your monitor, keyboard, CPU and digitizer off your desk or drafting table. Being supported independently, your monitor no longer needs to dictate the angle of your drafting table while you work. Both can be adjusted independently for a working angle that is most comfortable for you. Its mobility makes it easy to access and easy to share expensive CAD equipment.

The center post allows vertical adjustability of the monitor arm from 6" to 53" high. The 16"w x 13"d monitor platform rotates completely 360° and tilts ±5°. It holds monitors up to 75 lbs. Its 13" monitor arm is an optimal length for keeping your monitor and keyboard perfectly positioned over your table. The chrome bar off the platform is doubly functional as a keyboard storage rack and a pull bar. Measures 22"w x 28"d x 53"h. Ships UPS.

Move Your Mac II As low as 95 Off the Desk

- Super stable support of your computer
- Fully adjustable for user comfort

Monitor arm extends, rotates & tilts

Super support of your monitor and computer is th password to the Extender Caddy. Its sturdy stee construction gives your monitor and computer stable solid support without the need for clamps. A free standing monitor/computer stand, the Extender Cadd will hold monitors up to 65 lbs, and accommodat Mac II computers from 31/4" to 63/4" wide. Th monitor arm is suspended via an all-steel vertica post. Its legs slide under any desk with a clearanc of at least 3/4". If your desk has glides instead of casters, they probably can be adjusted to the 3/4 minimum requirement.

Monitor Arm features superior adjustability

The Extender Caddy gives you ergonomic comfo while working on your computer day in and day ou Its 2-piece hinged arm pivots your monitor in a radiu of up to 24" and rotates 90°. An oversized platform measuring 16"w x 13"d rotates a full 360°. And, it till ±5° to eliminate screen glare and reflection. What ever angle or depth is best, the Extender Caddy w accommodate you.

Boasts flexibility and easy assembly

Assembly of the Extender Caddy is quick and simple The base legs can be connected for the Caddy's us from either the right or left side of a desk or worksta tion. It keeps your computer conveniently close t your desk for use. Overall dimensions (with th monitor arm fully extended) 30"w x 24"d x 38"h. Shi wt. 70 lbs. Ships UPS.

Team Up Space Efficiency & Security

Why compromise when you get security and space efficiency wrapped up in one unit? SpaceMaster and EconoMaster are lockable, spaceefficient cabinets that require only 4 square feet of office space. Each unit features locking doors to prevent theft or unauthorized use of your entire Macintosh system. Their vertical design efficiently organizes your Macintosh.

SpaceMaster is full-featured with a tambour door and swing-open doors at the bottom. Its full-line of optional accessories, including an upper CPU shelf, copyholder/supplies drawer and side shelf, provides you with comfort and working convenience. All interior shelves are easily adjustable via predrilled holes at 11/4" increments. Assembly is simple with metal cam-lock connectors.

EconoMaster focuses on providing security and space efficiency at an economical price. Its fulllength doors swing open for access to your Mac. Inside, holes are pretapped at 11/4" intervals for installation of the roll-out keyboard and printer shelves. The cabinet and all other inside shelves are put together with metal cam-lock connectors. Assembly required.

horizontal to 40° inclination. Scratch resistant vinyl laminate top. 28" x 48" board surface

Corner Keying Unit-Ideal for extensive computer usage. Features a height adjustable keyboard platform, 201/2"w x 131/2"d.

Oversized MacMaster Cart Combines Spaciousness vith Space Efficiency

s a spacious workstation while you're workg; space efficient when you're not. Unlike her workstations, the MacMaster Cart gives ou 35" of comfortable leg room, not just the epth of the pull-out keyboard shelf. It feares an oversized 30"w x 22"d top platform ith an optional keyboard extension shelf, dding another 14" x 12" work area.

nother unique feature is its low profile Mac rolley printer stand. By nestling underneath e MacMaster Cart, it minimizes the space eeded for this workstation. Roll out your rinter when you need it; roll it underneath the art when you're done. It's that simple! This estling feature keeps your work area organed and efficient. Because the Mac Trolley ts only 111/2" high, it provides enough space hile tucked away for a laser printer up to 41/2" high.

vailable at a discounted 3-piece set consistg of the cart, trolley and shelf, or compoents may be purchased separately. Ships PS. Assembly required.

Space efficient cluster with 60" x 24" tables

Space efficient and functional. Our Workstation Tables efficiently organize multiple Macintosh systems in small spaces. They're ideal for offices, schools and training centers. Because of their height adjustability from 23" - 27", these tables work equally well for adults and children.

Mac Workstation Tables

Each table comfortably fits two Macintosh workstations on a 3/4" melamine surface measuring 60" x 30", 60" x 24" or 48" x 24". When positioned back to back, the tables pack a lot of work space in a small area. Its fold-out legs bolt to the extra deep modesty panel for sturdy, heavy-duty support. Keep books and manuals close at hand with an optional Book Box, 11"w x 16"d x 171/2"h. Tables are Gray with Black trim.

Item 76367M (List \$129.95) \$64.0

The Organizer—A Printer Stand For LaserWriter II, NT, NTX & H/P's

Looks, styling and function—all add up to the perfect printer star organizers for the LaserWriter II, NT, NTX, Hewlett-Packard laser printer

and other similarly sized printers. Their looks and styling exactly match the LaserWriter II Printer. The full-size version stores 2 extra paper trays, 2,000 sheets of paper up to 81/2" x 14", a hard disk drive, a toner cartridge or other supplies. The Junior Organizer positions your laser printer only 11" from the floor—a perfect height for storing it underneath your desk. Roll it out to use the printer; roll it back when you're not. Constructed of a high impact polystyrene. Manufacturer's lifetime warranty. Both ship UPS.

usic-On-Hold™

Adds the "hold" feature to all your toch-one phones til recently, music with hold was only available through expen-e key systems. Small wonder that this feature has traditionally ferentiated large businesses from small ones. But no more signTech has introduced a cost-effective alternative that's per-t for small to midsize businesses as well as home offices. Music--Hold* comes standard with a preprogrammed Beethoven nata; or, if you desire, connect it to a household radio or cassette yer for a custom touch. Only one unit needed per line to add hold feature to all your phones. m 94813M (List-\$39.95) ... \$29.95

Iusic-On-Hold"

- **Telephone Interruption BlockerTM**
- Prevents interruptions of modem or Fax transmissions from anyone picking up a phone on a common line. Saves
- Blocks others from interrupting or overhearing your phone conversations.

Prevent unwanted modem interruptions. Use Interruption Blocker® to protect a designated line for your modem, fax machine or telephone. Co-workers and children cannot barge in on your transmissions since their phones will be rendered temporarily useless. (One unit needed per blocked phone.) Item 94814M (List-\$19.95)

\$14.95

Answering Machine Message-Stopper™

- Stops your answering machine's message when you pick up any phone. Ends waiting for your message to finish before you talk!
- A necessary accessory for every answering machine without a remote disconnect feature. Stop embarassing yourself by yelling over your own message. Pick

up the telephone in the middle of a call and Message Stopper® will automatically stop the message and reset your answering ma-chine. One Message Stopper™ will cut-off your answering machine's message from any phone to the same line. Item 94815M (List-\$19.95) \$14.95

Animated Art with Sound Effects

Make Life a Game... **You Win More Often**

All stressed out? Take a break. Relax. Close your eyes and let Synchronicity relieve your stress with the sound of a peaceful waterfall and Random Frogs™ croaking along the bank. Let your Mac help you float downstream.

Synchronicity is a creative decision-making and intuition support program that serves as a relaxing way to take a break. Based on the work of the great psychologist Carl Jung and the Book of Changes, it helps you make better decisions on questions of personal strategy. It supports skillful detachment while serving as a mirror for your intuition. Regular use will improve your sense of timing while reducing stress and worry. Lifeguard reminds you to take a break by interrupting your work with relaxing activities.

Item 75135M Synchronicity (List-\$59.95).....\$39.00 each. Item 74823M Lifeguard (List \$79.95) \$29.95 each.

VISIONARY

Time Management Power On Your Mac

You'll wonder how you ever managed without this inexpensive and powerful utility. First Things First provides a system for effective time management with skillful reminders. It's a project manager, too, offering up to 20 categories for action items and schedules. Pop-up menus let you create, edit or view multiple categories. A great gift idea!

Item 75275M \$49.00 ea.

Prevent Disaster with Handy Keyboard Skins

Your keyboard can't protect itself from accidental spills or dirt contamination: it needs your help. SafeSkin Kevboard Protectors are precision molded keyboard covers designed to remain in place during use.

Each cover is custom molded to fit a specific keyboard. The fit is so exact and the material is so flexible, you hardly know it's there. Its wrap-around design provides a perfect seal for maximum protection. Harmful dust and dirt is locked out to prevent additional service calls. Don't see your keyboard listed? Contact our Customer Service Department. We have hundreds available!
