# THE NEXT MILLENNIUM!

## The #1 anti-virus in the world!

**SYMANTEC.**™

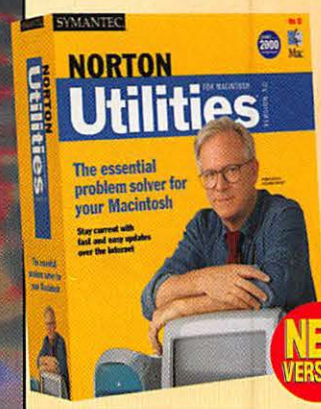

### Norton AntiVirus Version 6.0

Give your Mac automatic protection against viruses, malicious ActiveX controls, Java™ applets, and other dangerous code. Norton AntiVirus 6.0 protects your Mac while you surf the Internet or get information from floppy disks, CDs or a network. It also automatically scans incoming attachments in the most popular e-mail programs. And Norton AntiVirus is exceptionally easy to keep updated, with automatic retrieval of new anti-virus definitions from Symantec as often as once a week.

**\$27.98\***

#652997

\*After \$40 mfr. mail-in rebate for previous owners of Norton AntiVirus and crossgrade users of Norton Utilities for Mac. Low Zone price: \$67.98. Offer good for life of product. Limit one per customer. Not valid with any other offer, bundle or rebate.

## The essential problem solver for your Mac!

### Norton Utilities Version 5.0

Norton Utilities 5.0 prevents, undoes, and repairs virtually every cause of data loss your Mac may encounter. Norton Disk Doctor™ fixes disk problems before they become major headaches. Norton Speed Disk™ frees up disk space and boosts your system performance. FileSaver automatically scans your hard drive during idle time, startup or shutdown for disk damage before it results in data loss. UnErase can retrieve files that have been accidentally deleted. And Norton CrashGuard™ protects your Power Mac when crashes strike.

**\$44.98\*\***

#652996

\*\*After \$50 mfr. mail-in upgrade/crossgrade rebate for Norton Utilities/ Norton AntiVirus. Low Zone price: \$94.98. Offer good for life of product. Not valid with any other offer, bundle or rebate.

## MAC OS 9 HAS OVER 50 HOT NEW FEATURES!

### Sherlock 2

Find information, people, news, and shop on the Internet faster and easier than ever -- all with a simple new interface. When you're looking for people, you get their e-mail addresses and phone numbers. When you're shopping, you see how much it's going to cost and how quickly you can get it. Of course Sherlock lets you sort so you can zero in on exactly the information you're looking for.

### Multiple Users

Share your computer with your family or classmates and your window to the Internet is always ready, even if someone else has been using your computer. Mac OS 9 remembers all of your Internet settings like e-mail, home page and favorites, as well as all your desktop and application preferences too.

### Voiceprint Password

With Voiceprint Login, your password or even your voiceprint, unlocks your private Keychain, which gives you access to all your e-mail, Web, and file server accounts so you never have to type another password.

### Keychain

Tired of trying to remember all your different passwords for the Web? The personal keychain in Mac OS 9 securely stores all of your user IDs and passwords. Your voice—or one typed password—unlocks them all.

### Encryption

Mac OS 9 protects all your important information and lets you encrypt files with built-in system tools to send them securely across the Internet. It keeps your private information private with industrial-strength encryption. Mac OS 9 gives you the confidence to send whatever you want over the Internet without having to worry about it falling into the wrong hands.

### Auto Updating

Keep your Mac up-to-date, automatically. Sherlock 2 makes sure you always have the latest software. It automatically downloads software upgrades via the Internet, and even installs them for you.

### File Sharing over the Internet

Apple's easy-to-use File Sharing system now works over the Internet! You can share files, folders and data with anyone.

### Network Browser

The Internet just got easier to manage! The Network Browser in OS 9 lets you find Internet file servers, FTP servers and Web servers as easily as you find printers on your network. Put the power of the Web at your fingertips with this easy-to-use, browser-based tool.

### AppleScript over TCP/IP

Put your Mac on automatic pilot—remotely, over the Internet. AppleScript lets you automate tasks on your Mac. And AppleScript over TCP/IP takes you to the next level by letting you remote-control your Mac (or a whole battery of Macs) from wherever you happen to be.

## Final Cut Pro

**"It combines the power of a \$100,000 non-linear editing and special effects system with an exceptionally simple interface. I love it!"**

— Michael Backes, Motion picture producer

Final Cut Pro is the only affordable software that combines professional editing, compositing, and special effects capabilities in one program. Using the new DV and FireWire standards, Final Cut Pro transforms your G3 into a powerful video workstation. Fast, interactive tools let you see exactly how your video will appear in the finished production. And the leading-edge user interface lets you concentrate on your creativity — not how to use the program!

## The Supercomputer for the rest of us!

The new Power Mac G4 is up to a stunning **100% to 200% faster than the fastest Pentium III-based PCs.\*** Quite simply, it's the fastest machine ever designed to run graphics applications. The Power Mac G4 eats processor-intensive tasks like Gaussian blurs, lighting effects, rotations and color conversions for dinner and still has room for dessert.

\*In CPU and Photoshop tests.

**200% FASTER TESTS PROVE IT!**

"Currently, the G4 is significantly faster than any platform we've seen running Photoshop 5.5"

**Adobe**

John Warnock, CEO of Adobe

Visit [zones.com/apple](http://zones.com/apple) to learn more about the new Power Mac G4!

**\$100 SAVINGS!**

Buy an Epson 900G with your new Power Mac G4 and receive a \$100 mail-in rebate direct from Epson!

Offer good through 11/31/99.

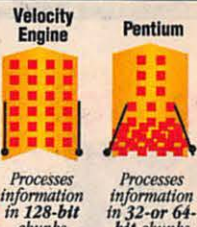

## Meet the PowerPC G4 with Velocity Engine The first supercomputer on a chip!

**500MHz PowerPC G4 = 3x Faster**  
than PIII 600MHz

**Photoshop runs... 2x Faster**  
than PIII 600MHz

**1 Billion floating point operations = 1 Gigaflop**

**1 Gigaflop = Supercomputer Processing Power = G4**

# Dreams Come Alive with Digital Video and Streaming Video

Join the **Digital Video Revolution!**

**"The digital video market is booming.**

I mean, digital TV is all that everyone talks about ... It's just as profound as what happened 15 years ago with desktop publishing. Video is going in and out of the computer. It's being scaled. It's being manipulated. It's being moved toward the Net at the same time that it's moving up toward broadcast."

— Dirk Van Dal  
Principal Consultant  
Digital Video Showtime Networks

**DV is the fastest growing segment of the camcorder market!**

\*The latest research on new digital video storage technologies by Strategy Analytics (formerly BIS Strategic Decisions). Based on camcorder sales in Europe, the U.S. and Japan.

**Digital Video**  
Camcorders are changing the uses for video in:

FireWire standards, Final Cut Pro transforms your Power Mac G3 into a powerful video workstation. Fast, interactive tools let you see exactly how your video will appear in the

## Imagine Final Cut Pro

### Professional Tools

- Professional editing, compositing and effects programs in one product
- Complete set of editing tools
- Build composites using a direct, proxy-free interface
- Create and animate unlimited layers

### Plug-and-Play Digital Video

- Works instantly with most FireWire-equipped Power Mac G3 computers
- Gets video directly from most DV devices
- Works with certified QuickTime-compatible video capture/output cards
- Simultaneous output to your monitor and a TV monitor, VCR or camera

finished production. Final Cut Pro is your weapon of choice for the new Digital Video Revolution!

**"It combines the power of a \$100,000 non-linear editing and special effects system with an exceptionally simple interface. I love it!"**

— Michael Backes  
Motion Picture Producer

### Enhanced Workflow & Productivity

- Do all your work through four multi-function windows
- Edit using a source/record, timeline or keyboard interface
- High-speed previewing and rendering
- 99 levels of "undo"

### Outstanding Support for QuickTime

- Large windows with smooth playback, even on large files
  - Enjoy audio/video synchronization
  - Use super large files (over 2GB)
- Requirements: 266MHz or faster Power Mac G3/G4 with Final Cut Upgrade, 128MB RAM, 66B Hard Drive, Mac OS 8.5, FireWire card may be necessary for video capture.

## Tools to Perform and Create...on Your Mac!

## XLR8 CPU Upgrades

## Award-winning power for your Mac!

XLR8 delivers award-winning compatibility and extreme performance for your Mac. These upgrades include exclusive performance options, full compatibility and are backed by the most experienced CPU software team outside of Apple.

- Leading performance and compatibility • Upgradeable to faster speeds and G4
- Customizable performance with MVP™ • Installs in minutes with single click software installers and photo-illustrated manuals • Includes XLR8's SmartControl™ software with Virtual Firmware™
- Includes XLR8's PowerPack™ compatibility and fractal generating software package
- Editors' choice – award-winning design

## XLR8 MACH Carrier G3

The "upgradeable upgrade". This product combines the MACH Speed G3z with the CarrierZIF. For the PowerMac 7300-9600 and most clones.

## XLR8 MACH Carrier ZIF Adapter

The universal adapter. Combine the CarrierZIF with any standard G3z (ZIF) daughtercard. For the PowerMac 7300-9600 and most clones.

## XLR8 MACH Speed G3

The original all-in-one solution delivers G3 performance for the PowerMac 7300-9600 and most clones, plus it includes the XLR8 USB Performance Package Offer.

## XLR8 MACH Speed G3z

The ZIF (Zero Insertion Force) CPU Daughtercard for Power Macintosh G3 systems and XLR8's CarrierZIF, plus it includes the XLR8 USB Performance Package Offer.

## Accelerator Cards (All include a 1MB Cache except Carrier ZIF)

### UMAX PowerLook III Scanner

**New high-resolution reflective scanner!**

- 9600 dpi optical res.
- 1200x2400 dpi max. res.
- 42-bit color
- 8.5"x11.7" scanning area
- Single-pass
- Hot Swap Warranty for immediate replacement for the first year
- Now includes Mac G3 compatible SCSI card

The new PowerLook III beautifully scans standard reflective material, plus it handles slides and negatives up to 8.5"x10" with ease. Use its auto-detect slide holder to crop and scan up to 12 slides automatically. Its 42-bit color depth captures billions of colors to reproduce images with the greatest of color fidelity, and its 3.4D maximum optical density detects full details in highlight and shadow. If you do electronic publishing, graphic design or digital media, you'll benefit from the advancements of the new PowerLook III, so order online at [Zones.com](http://Zones.com) or call today!

### UMAX Mirage Duo Design Scanner

**Purified image signals and filtered "noise" ensures perfect image quality**

- 700x1400 dpi optical with Lens 1; 1400x2800 optical with Lens 2
- 9600 dpi maximum res.
- 36-bit color
- 11.4"x17" scanning area with Lens 1; 5.7"x17" with Lens 2
- Single-pass
- Now includes Mac G3 compatible SCSI card
- One-year limited warranty

Scan images at 700x1400 dpi or at an amazing 1400x2800 dpi optical resolution, just by switching between two lenses! The huge scanning area lets you scan tabloid-size originals or, with the included software, you can scan up to thirty-two 35mm slides or nine 4"x5" transparencies at once! Its dynamic range of 0.1 to 3.3 provides vivid color density and its 36-bit color depth recognizes billions of colors for high-fidelity reproductions. Plus, the Mirage Duo Design includes binuscan PhotoPerfect Advance, MagicScan 4.0, Photoshop LE, Textbridge Classic OCR, and an interface card. Visit us online at [Zones.com](http://Zones.com) today!

**Auto detect slide holders let you drop and scan up to 35 slides automatically!**

CISCO SYSTEMS

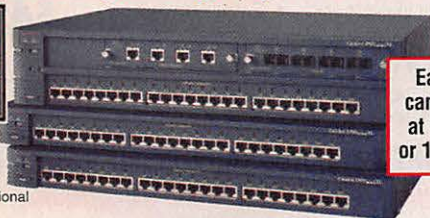

## Catalyst 2912-XL 12-Port 10/100 Auto Switch

Fast Ethernet performance for demanding workgroups and servers!

Product shown is representative only.

Each port can operate at 10 Mbps or 100 Mbps!

- 12-port 10/100Base-TX RJ-45 Ethernet switch • Full-duplex auto-sensing ports • Integrated HTTP server • 4 groups of embedded RMON • SNMP support • 4MB shared memory architecture eliminates head-of-line blocking, minimizes packet loss, and reduces congestion
- Bandwidth aggregation through Fast EtherChannel technology enhances fault tolerance and offers up to 800 Mbps bandwidth

## Mac OS X Server

**"...fast, stable and extremely powerful while deceptively easy to use."**

— Computer Reseller News, April 14, 1999

Featuring a modern foundation, key open standards, and innovative Internet and workgroup services, Mac OS X Server helps system administrators and Web developers deliver powerful, easy solutions for the Internet, education and publishing markets. Its proven Mach microkernel offers pre-emptive multitasking and protected memory for crash-resistant operation of your server. And the included Apache software, scales from serving small workgroups to hosting an Internet site with multiple domains and millions of hits per day.

#102942

**\$429<sup>97</sup>**

- Protected Memory prevents conflicts between programs
- Pre-emptive multitasking runs multiple processes and performs many operations simultaneously
- NEW NetBoot feature offers centralized workgroup management

SYMANTEC.™

## Keep Your Mac Up And Running Smoothly

## Norton AntiVirus Version 6.0

*The #1 anti-virus tool in the world!*

Give your Mac automatic protection against viruses, malicious ActiveX controls, Java™ applets, and other dangerous code. Norton AntiVirus 6.0 protects your Mac while you surf the Internet or get information from floppy disks, CDs or a network. It also automatically scans incoming attachments in the most popular e-mail programs. And Norton AntiVirus is exceptionally easy to keep updated, with automatic retrieval of new anti-virus definitions from Symantec as often as once a week.

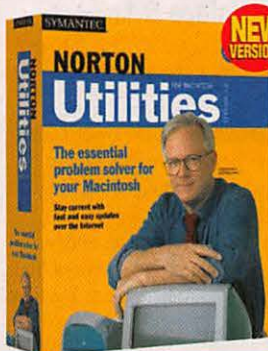

### New Version Features

- Revolutionary Bloodhound technology "sniffs out" new and unknown viruses before they can enter your Mac
- LiveUpdate ensures your Mac is protected against the latest virus threat
- SafeZone provides a quarantine area on your hard drive
- AutoProtect and Auto Repair provide continuous, unobtrusive background protection

#652997

**\$27.98\***

\*After \$40 mfr. mail-in rebate for previous owners of Norton AntiVirus. Low Zone price: \$67.98. Offer good for life of product. Limit one per customer. Not valid with any other offer, bundle or rebate.

## Norton Utilities Version 5.0

*The essential problem solver for your Mac!*

Norton Utilities 5.0 prevents, undoes, and repairs virtually every cause of data loss. Norton Disk Doctor™ fixes disk problems before they become major headaches. Norton Speed Disk™ frees up disk space and boosts your system performance. FileSaver automatically scans your hard drive during idle time, startup or shutdown for disk damage before it results in data loss. UnErase™ can retrieve files that have been accidentally deleted. And Norton CrashGuard™ protects your Power Mac when crashes strike.

### New Version Features

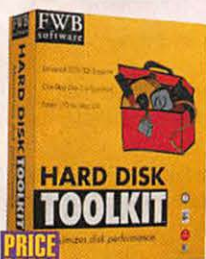

- "Live" Disk Repair lets Norton Disk Doctor repair problems on even the startup drive – without booting from the CD
- Integrates with Norton AntiVirus 6.0
- LiveUpdate ensures you have the latest software
- Improved! Norton Speed Disk optimizes your hard disk's directory structures in addition to files

\$49.99. †After \$15 mfr. mail-in rebate. Low Zone price \$89.99. Offers good through 11/20/99.

**PNY's complete line  
also includes memory  
for older Macs.**

## Boost your Mac's performance by adding more memory!

A RAM (Random Access Memory) upgrade means:

- Running today's memory-hungry applications with ease
- Increasing your system performance for fast access to information
- Using multiple applications at the same time

To take advantage of the full potential of your Mac and today's feature-packed applications, you need lots of RAM. And Zones makes memory upgrades easy and affordable.

**DUE TO THE VOLATILE NATURE OF THE MEMORY MARKET, PRICES ARE SUBJECT TO CHANGE. PLEASE CALL OR VISIT ZONES.COM FOR CURRENT PRICING!**

**Shipping**  
Orders placed before Midnight ET for items in stock will be shipped the same day, upon order verification (barring system failure, etc.). For delivery in the USA, freight is based on product weight. Handling extra. Shipping options include Airborne Overnight, Airborne 3 Day and UPS Ground. (Some rural areas may require extended delivery times.) Items in excess of 150 lbs. will be shipped via Roadway and may require special shipping and handling charges. Saturday delivery is available in some areas. Please ask your Sales Advisor. Please call for shipping rates outside the U.S.A. Canadian orders will be charged G.S.T. APFOFO orders will be shipped via U.S. Mail, 4th Class. We cannot ship to P.O. Boxes due to insurance and liability constraints. Customer signature required at the time of delivery for Airborne, FedEx, LTL and UPS shipments. (USPS and DHL shipments do not require a signature.)

**Payment Options**  
Payment by American Express, Mastercard, Discover, Visa and Optima credit cards accepted with no surcharge. Your credit card is not charged until your order is shipped. If you prefer to pay by check, call and your Sales Advisor will take your order and direct your payment. Please allow 10 business days for company and personal checks to clear. Purchase orders are accepted for cor-

porate, educational and government orders. All checks or purchase orders must include a contact person and phone number in order to be processed. A \$20.00 fee will be charged on all returned checks. Due to the high cost associated with C.O.D. orders, we are no longer accepting this method of payment. We are taking this step to maintain our ability to offer our customers the most competitive prices available.

**Year 2000 Compliance**  
All products sold by Multiple Zones International are third party products and are subject to the warranties and representations of the applicable manufacturers, including but not limited to Y2K compliance. Accordingly, Multiple Zones International makes no representation or warranty with respect to the Y2K compliance of product sold.

**Your Satisfaction is Guaranteed!**  
We provide the services of our fully staffed Technical Support and Customer Care teams to help you after purchase. If you have any questions about your order, please call 1-800-248-9948.

**Return Policy:**  
Zones is committed to customer satisfaction. At the same time, manufacturers have imposed severe no-return restrictions on us. As a result, it has been necessary for us to come out with the following return policy.

Given these new return restrictions, we encourage you to take special consideration to our warranty program.

14 days from the invoice date a Return Authorization (RA) Number may be requested. No returns will be accepted without a Return Authorization Number.

No software licensing product is returnable. Only unopened packaged software is returnable up to 14 days from invoice date. All other software products are not returnable.

All products must be received by our Returns Processing Center within 10 days of RA issuance. Items received after 10 days will be refused. All RA numbers must appear on the shipping labels we provide on the back of your packing slip. PLEASE DO NOT MARK ON THE OUTSIDE OF THE BOX.

All items must be returned with original packaging, including all warranty cards, manuals, cables, accessories, components, etc.

All products are covered by the manufacturer's warranty against defects. If an item proves to be defective within 14 days from the date of your invoice, we can assist with the repair or exchange of that item for you, according to the terms of the manufacturer's warranty. After 14 days from your invoice date, you will be required to contact the manufacturers directly to repair, replace or

return their products. Please be sure to ask your Sales Advisor about our warranty programs and specific return conditions before you purchase. Replacement products for items found to be defective will not be shipped until the defective item is received and inspected. Once the item has been confirmed defective, the replacement will be shipped. If the defective item is being returned for credit, the credit will not be issued until the item has been inspected and confirmed defective.

Unopened product with the supplier's factory seal intact, may be returned for exchange or refund within 14 days of your invoice date (if permitted by manufacturer's return policy), subject to a 15% restocking fee.

Any deviation from the returns process outlined above will result in a delay of your refund, an additional restocking fee, and possibly a refusal of your return.

Shipping and handling charges are not refundable. The customer is responsible for shipping charges and insurance on all return shipments.

**General Information**  
Add applicable sales tax (only in OH, NV and WA). Prices and product availability subject to change without notice. All specials and promotions limited to stock on hand. Call for current

prices. Competitive and version upgrades require proof of purchase of qualifying software. Not responsible for typographical errors. We reserve the right to limit quantities on promotion products. Separate policies apply for specific offers within this catalog. See individual offer policies and notes for details. We are not liable under any legal theory for consequential or incidental damages arising from shipping delays, system downtime, loss of data or for any loss, damage, or expense arising from product malfunction or defect (including, without limitation, Year 2000 non-compliance in any software or hardware). We expressly disclaim all warranties, express or implied, including any implied warranty of merchantability or fitness for a particular purpose. This disclaimer in no way affects the terms of the manufacturer's warranty, if any. Other restrictions may apply.
